

Mississippi Recycling Coalition

School Recycling Grant Application

The Mississippi Recycling Coalition (MRC) is offering up to \$10,000 in grants to schools to support new or expanding recycling programs. Both \$500 and \$1,000 grants are available to public and private K-12 schools in Mississippi. This grant program supports the mission of MRC, a non-profit organization that works to promote and grow recycling efforts in the state.

Applications are due Tuesday, December 18, 2017. Mailed applications should be postmarked by that date; faxed and emailed applications should be submitted by 11:59 p.m.

Submitting Applications: MRC accepts applications through mail, fax and email. Also, please note guidelines and instructions below.

Email: mrobinson@oxfordms.net

Questions: If you have any questions, contact Michelle Robinson at 662-232-2745 or at mrobinson@oxfordms.net.

Guidelines and Instructions:

- MRC only accepts one application per school.
- A budget outline must be included in response to Question 6 on the application form.
The budget must support the grant amount the school is requesting (e.g. \$500 or \$1000).
- We request that all signatures be completed with an ink pen in a color other than black.
- Applications without the necessary signatures will not be considered.
- Only typed pages will be considered.
- Font size should be no smaller than 10 point and no larger than 14 point.
- In responding to Questions 1-6 of the application, additional attachments or enclosures may be included if needed.

School Recycling Grant Application
Project Narrative*

Please respond to the following questions in the space provided to describe your project. Attach additional pages if necessary to adequately describe the recycling program/project.

1. Describe your proposed and/or existing recycling program in detail.
2. Describe who will participate (or is participating) in managing and promoting the school's recycling program and how they will be (or are) participating. Describe the involvement by any student organization, parent/teacher organization, school district staff (e.g. administration, faculty, janitorial, maintenance staff) involved in the planning, implementation, and monitoring of the program. Be sure to highlight how students are included in leadership and implementation roles.

3. Describe how the school plans to implement the new or expanded recycling program (including where the materials collected will be taken for recycling and how will they be moved to the recycling facility)

4. Describe how the school will promote the recycling program and educate the faculty and student body on what can be recycled and how and where to recycle materials.
